GROOMING

How do offenders engage youngsters?
– by using the sites that they use....

Often posing as
a child of the same age / gender.
They will often purposefully present a
very similar profile as the child.
They are skilled at manipulating them into
criminal sexual relationships

Online grooming: The five stages

Friendship

1

Flattering a child

into talking in a private
chatroom/game where
they will be isolated

The child will often be
asked for a **non-sexual**
picture of themselves

Online grooming: The five stages

Forming a relationship

2

Gaining information

asking the child what problems
/needs they have to create the
illusion of being their
best friend and that they can help
They begin to fill the needs of the
child

Online grooming: The five stages

Risk assessment

3

Asking the child about
the location of their
computer/tablet and **who**
else has access to it

in order to assess the risk of
being detected. The desire is to
create situations where
they are alone together

to help reinforce a
special connection

Online grooming: The five stages

Exclusivity

4

Building up a sense of
mutual love and trust
with the child

suggesting that they can
discuss "anything"

Online grooming: The five stages

Sex talk / Meet

5

Engaging the child in
explicit conversations
& **requesting sexually**
explicit pictures from
them

At this stage the predator
will usually try to

arrange a meeting
with the child

Mark Taft (27) used **Facebook** under a fake account of a child who he called **Luke Carlisle**.
 Sentenced to **3 years, 3 months** in prison.
 Also given a **Sexual Harm Prevention Order** and will sign the **Sex Offenders Register** for life.

Law enforcement have warned about **Musical.ly** and similar apps accounts pretending to be idols like **Harry Styles** and **Justin Bieber**.
 "Lots of child sex offenders are **utilising Musical.ly to groom children**" said Inspector Jon Rouse.

Two boys, aged 12 and 14 groomed on **Minecraft** by Adam Isaac (23 years) and persuaded to send indecent images on **Snapchat** and **Skype**

Why do children send inappropriate images / videos?

There are many reasons why a young person may want to send a naked/semi-naked picture, video or message to someone else...

- A** joining in because they think that 'everyone is doing it'
- B** boosting their self-esteem
- C** flirting with others and testing their sexual identity exploring their sexual feelings
- D** to get attention and connect with new people on social media
- E** they may find it difficult to say 'no' if somebody asks them for an explicit image, especially if the person asking is persistent

Blackmail, bullying and harm

Threat comes mostly from peers

Sexting is often coercive

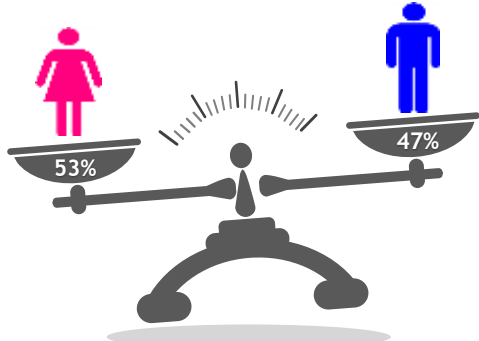

Girls are the most adversely affected

Technology amplifies the problem

Statistics range between **15 and 40 %** of young people being involved in sexting, depending on their **age** and the way sexting is **measured**.

MYTHS ABOUT SEXTING

(e.g. it is mostly boys who send indecent photos...?)

Do pictures sent via **snapchat** always *disappear* after a **short amount of time**....?

This sign in a teenage clothes shop has sparked an angry backlash online

Snapchat Apps....

THE LAW....

Tips for parents....

Create boundaries and rules for the amount of time child can spend online. It's never too early to start putting limits in place.

The rules and conversations you have now will set the tone for your child's internet use as they get older.

Always worth checking the videos, apps and games children use, and the age ratings and descriptions for them.
